

Who we are?

We are a team of professionals with more than twenty years of combined consulting experience in Open Source and Infrastructure doing what we love: implementing technology to maximize the efficiency of Infrastructures across several organizations, from Córdoba, Argentina to anywhere in the world.

We have wide experience and skills in technology and business. We are restless, proactive and capable to take ownership of practices, processes and strategies, always aligned with the **DevOps culture**.

Our objective is to make IT management simpler. That's what motivate us as well as working on open and collaborative circumstances with cloud environments & beyond.

What do we offer?

Top-notch primary skills! We are happy to put all of them at your service, in order to accomplish your goals, some of them are:

- + **Maintenance and Support**
Windows Server
Linux OS
(Ubuntu, Debian, CentOS, RHEL)
- + **Version Control (SCM)**
Git
Bitbucket
GitHub
Phabricator
- + **Collaboration**
Trello
JIRA
Microsoft TFS Backlog
HipChat
Slack
ServiceNow
Basecamp
- + **Containerization**
Docker
Docker Swarm
Kubernetes
Mesosphere DC/OS
- + **Cloud, IaaS, PaaS**
Amazon Web Services (AWS)
Microsoft Azure
Google Cloud Platform (GCP)
- + **Agile Methodologies and ITIL**
SCRUM
Change Management
- + **Monitoring & Logging**
NewRelic
Nagios
ElasticSearch
Kibana
Logstash
SumoLogic
Sensu
PagerDuty
- + **Automation & Orchestration**
Chef
Puppet
Ansible
Rundeck
Vagrant
Terraform
- + **Continuous Integration**
Jenkins
Bamboo
Visual Studio
CodeShip
- + **Big Data & Database**
MongoDB
MySQL
MS SQL Server
PostgreSQL
Hadoop
MariaDB

We add value to our customers with...

Convenient Rates

Competitive time ranges location

Cultural empathy with working peers

Multifaceted approaches on projects

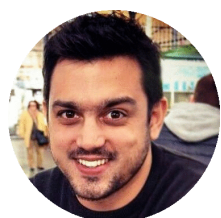

Maturity modeling

Meet the team

Germán Schinner

Tech Guru with more than 10 years of rock solid experience managing and carrying several IT projects based on Windows Server and Linux platforms. He holds several MS professional certifications, and knows best how to use and implement Windows Azure and Amazon Web Services (AWS) service portfolio, as diligent on how to keep applications like MongoDB, ELK Stack, Jenkins, Apache and Nginx environments up & running. Germán is our main consultant and MVP for OnPrem Windows Server, VMWare, and virtualized environment projects.

Luciano Trillo

Linux SysAdmin with professional background of 7 years. Luciano is proficient on Infrastructure development, magician on Bash & PERL scripting, and data gathering for dedicated DevOps & Linux scale solutions, and web infrastructure configuration (Nginx and Apache) in a context of coordination under the DevOps culture. He has a solid experience providing Linux Security Compliance services, as well as PCI Audit support and ISO 27001 controls. His work runs under Agile Methodologies, with things clean and granularly documented for future references & guidelines; has a degree as an Information Systems Analyst.

Andrés Hojman

Certified Linux and ITIL professional, with 10 years of market experience. Andres rocks with Data Center infrastructure; such as Linux equipment running Ubuntu. He counts with entrepreneur spirit, results self-orientation, and proactive attitude as personal background. Hands-on expertise supporting 'real life' devices, such as fiber and copper switches, load balancers and BladeCenters. When Cloud matters, his speciality is with GCP and its service portfolio.

Daniel Acevedo

Team manager, business main point of contact and corporate relations representative. Daniel is currently leading our service offering operation in LATAM, US and EMEA markets. His technical background relies on 9 years of experience on Quality Assurance and Software delivery for web-based applications, websites, and ecommerce platforms across multiple markets.
